**Operator and Parts
Manual**

This manual is furnished with each new model. It provides necessary operating and preventive main-tenance instructions. Read this manual completely and understand the machine before operating or servicing it. This machine will provide excellent service. However, the best results will be obtained at minimum costs if:

- The machine is operated with reasonable care.

The machine is maintained regularly - per the maintenance instructions provided.

The machine is maintained with approved parts.

Parts and supplies may be ordered by phone or mail from any parts and service center, distributor or from any of your representative subsidiaries.

A complete illustrated parts list is supplied with this machine, use this list to order parts. Before ordering parts or supplies, be sure to have your machine model number and serial number handy.

TABLE OF CONTENTS

SAFETY PRECAUTIONS	FOR SAFETY
SAFETY PRECAUTIONS	1. Do Not Operate, Maintain, or Service Machine: - Unless Trained And Authorized.
GENERAL INSTRUCTIONS	- Unless Operation Manual Is Read And Understood.
MACHINE COMPONENTS	- With Damaged Cord Or Plug.
INSTALLATION	2. When Using Machine: - Do Not Pick Up Live Ashes Or Cigarette Butts.
PLACING POWER CORD	3. Before Leaving Or Servicing Machine: - Turn Off Machine And Unplug Power Cord From Outlet.
MACHINE OPERATION	WARNING: To warn of hazards or unsafe practices which could result in severe personnal injury or death.
PRE OPERATION CHECKS	FOR SAFETY: To identify actions which must be followed for safe operation of equipment.

Rear Wheel

GENERAL INSTRUCTIONS

Throughout this book references are made to figure numbers. These figures can be found on the page at the end of this manual.

INSTALLATION

UPRIGHT CARPET VACUUM CLEANING

5. Snap the upholstery tool and crevice tool into the option mount.
6. Plug the **cord pigtail** into the outlet at the back of the vacuum housing.

PLACING POWER CORD

According to your preference you can place the power cord on the machine in two ways:

3. Remove the wand by snapping it out of the retainer clip and pulling it from its inlet. The brush motor will stop automatically when the wand is removed.
4. Attach your choice of either the upholstery or crevice tool to the wand and clean as you like.
5. When finished cleaning replace the tool and wand to

1. Plug the power cord into a receptacle.
2. Adjust the brush height knob to suit the carpet thickness you are going to clean. The carpet indicator shows its position (1-4). Refer to figure 3.
3. Turn the **main power switch**

MACHINE COMPONENTS

1. Handle
 2. Option mount
 3. Full Bag Light
 4. Main Power Switch
 5. Door Latch
 6. Bag Housing
 7. Release Handle
 8. Electronic Display
 9. Handle Pivot
 10. Brush Housing
 11. Power Brush Housing
 12. Hose
 13. Upper Cord Hook
 14. Power Cord
 15. Wand
 16. Transport Handle
 17. Thumb Nut
 18. Base Inlet Connector
 19. Cord Pigtail
 1. Install **handle** by sliding it into the opening in the top of the **bag housing** until it bottoms out. Install and tighten with the M5 thumbscrew.
 2. Install the **hose** by pushing one end into the top of the **bag housing**. Push the other end into the **wand**.
 3. Position the open end of **wand** over the opening of the **power brush housing** and while referring to figure 2 push the **wand** into the sleeve in the back of **bag housing** until it snaps into the notch.

Note: The italicized words in the following sections refer to items in the MACHINE COMPONENTS list. These are only italicized the first time they appear.

UPRIGHT CARPET VACUUM CLEANING

- UPRIGHT CARPET VACUUM CLEANING**

 5. Snap the upholstery tool and crevice tool into the option mount.
 6. Plug the *cord pigtail* into the outlet at the back of the vacuum housing.

PLACING POWER CORD

According to your preference you can place the power cord on the machine in two ways:

 3. Remove the wand by snapping it out of the retainer clip and pulling it from its inlet. The brush motor will stop automatically when the wand is removed.
 4. Attach your choice of either the upholstery or crevice tool to the wand and clean as you like.
 5. When finished cleaning replace the tool and wand to
 1. Plug the power cord into a receptacle.
 2. Adjust the brush height knob to suit the carpet thickness you are going to clean. The carpet indicator shows its position (1-4). Refer to figure 3.
 3. Turn the *main power switch*

You are going to clean.

1. Handle
 2. Option mount
 3. Full Bag Light
 4. Main Power Switch
 5. Door Latch
 6. Bag Housing
 7. Release Handle
 8. Electronic Display
 9. Handle Pivot
 10. Brush Housing
 11. Power Brush Housing
 12. Hose
 13. Upper Cord Hook
 14. Power Cord
 15. Wand
 16. Transport Handle
 17. Thumb Nut
 18. Base Inlet Connector
 19. Cord Pigtail
 1. Install **handle** by sliding it into the opening in the top of the **bag housing** until it bottoms out. Install and tighten with the M5 thumbscrew.
 2. Install the **hose** by pushing one end into the top of the **bag housing**. Push the other end into the **wand**.
 3. Position the open end of **wand** over the opening of the **power brush housing** and while referring to figure 2 push the **wand** into the sleeve in the back of **bag housing** until it snaps into the notch.

Keep machine in a stable position, preferably an upright position.

For instructions see the DUST BAG REMOVAL AND INSTALLATION.

- If the light comes on and the dust bag is not full there is an obstruction somewhere in the system.

Plug in the power cord and switch on the machine as described in the UPRIGHT CARPET VACUUM CLEANING.

DUST BAG REMOVAL AND INSTALLATION (Refer to figure 6).	WARNING: Hazardous Voltage. Shock or Electrocution Can Result. Unplug Power Cord Before Working On Machine.	RED LIGHT: Brush rotation obstructed. Refer to Trouble Shooting.	4. Replace filter in the retainer and snap it into place.	WARRANTY
1. Open the bag housing by pushing on the door latch. Fold the ends of the dust bag together and carefully remove the bag. Dump the bag in a disposal container.	The machine exterior should be cleaned once a week with a dust towel. A damp towel together with a mild detergent may be used.	These lights alert the operator of problems which must be corrected immediately. Monitor these lights during operation.	5. Replace dust bag.	The manufacturer warrants to the original purchaser that products manufactured are free from defects of workmanship and material, provided such goods are installed, operated and maintained in accordance with the written manuals or other instructions.
2. Always install a new dust bag directly after removing a full one.	DO NOT USE WATER.	THERMAL OVERLOAD	CAUTION: Do not operate the vacuum without the inlet filter in place.	In case you, as our customer, encounter any trouble with your machine contact your representative who will be obliged to be of service to you and will take care of the warranty settlement.
3. To install the new dust bag, push the bag onto the inlet of the fan motor as far as it will go. Fold the top down so it will not interfere with the door latch.	Every week Inspect and clean the filter at the vacuum motor inlet.	The internal temperature of the vacuum motor is sensed at all times. When the temperature gets too high the sensor shuts off the vacuum motor. Inspect the machine for any air obstruction. The sensor will reset automatically when the sensor and electric motor have cooled sufficiently. The motor can then be re-started.	1. Remove the screw holding the brush access plate and remove plate. 2. Grasp the brush strip and slide it out of the brush extension.	Your representatives are able to service you with detailed warranty conditions as well as periodic maintenance contracts.
4. Close the door ensuring that it latches properly.	Every month Inspect brush for wear. If brush strips no longer touch the carpet they have to be replaced.	CLEANING OR REPLACING INLET FILTER (Refer to figure 8)	3. Replace the strip with a new one and slide it into place. 4. Replace the access plate and install the screw.	NOTE: Alterations and changes made to the machine without written approval and use of unapproved spare parts will not be covered by warranty.
	Every year The carbon brushes in the vacuum and brush motor have to be inspected for wear.	STORAGE INFORMATION		The machine may be stored in any dry area. The machine may be parked either in a horizontal or an upright position.
		ROUTINE CARE AND MAINTENANCE		Note: Replace the filter if worn or not cleanable.
		The maintenance should be carried out by authorised maintenance personnel only. Every year the machine should be safety certified according to local safety standards (UVV). Contact your dealer for the most adequate and best service.	RED & GREEN LIGHT: Brush drive belt broken. Refer to Trouble Shooting.	

SPECIFICATIONS

Item	Dimension/Capacity	
Length	360 mm	460 mm
Width	260 mm	260 mm
Height	360 mm	460 mm
Weight	1200 mm	1200 mm

Sweeping path	310 mm	410 mm
Powercord length	310 mm	410 mm
Brush motor	10 M	10 M
Vacuum motor	0.7 A	1A
Filter bag	3.7 A	3.7 A
	5.7L	5.7L

TROUBLE SHOOTING

	TROUBLE SHOOTING	
Machine unplugged.	Plug the machine in.	
Switch in off position.	Switch on machine.	
Sensor temperature too high.	Check for air obstruction.	
Let the motor cool down.	Let the motor cool down.	
Faulty switch.	Replace switch.	
	Request service call.	
Vacuum motor is off.	Machine unplugged.	Plug the machine in.
Switch in off position.	Brush switch off.	Switch brush on.
Sensor temperature too high.	Wand not installed correctly.	Re-install wand.
Faulty switch.	Brush motor obstructed.	Unplug machine and inspect for obstruction.
		Request service call.
		Request service call.
Brush drive belt broken.	Brusch drive belt broken.	
Dust bag full.	Dust bag full.	Replace dust bag.
Hose and wand blocked.	Hose and wand blocked.	Inspect for obstruction.
Power brush inlet blocked.	Power brush inlet blocked.	Inspect for obstruction.
Inlet filter blocked.	Inlet filter blocked.	Clean or replace inlet filter.
Deflector port sealing in top of housing.	Deflector port sealing in top of housing.	Check for free movement.
Low suction.	Dust bag full.	Replace bag.
	Full bag indicator flashes.	See Full Bag Indicator Flashes.
Wand not installed correctly.	Wand not installed correctly.	Re-install wand.
Brush not adjusted correctly.	Brush not adjusted correctly.	Adjust brush height knob to conform to carpet thickness (pile).
Brush worn.	Brush worn.	Request service call.
		Replace brush.

PLACING AN ORDER	<p>Orders may be placed by phone, fax, or by mail. Phone orders may need written confirmation. Follow the steps below to insure prompt delivery.</p> <ol style="list-style-type: none"> 1. Identify the model number of your machine. 2. Identify the serial number of your machine. 3. Find the part number of the part you need. Do not order by page number or reference number. If you are not able to find the part number; call your representative for help or send the old part as a sample. 4. Determine the quantity of the part you need. 5. Provide the following company information: <ul style="list-style-type: none"> - Company name - Customer ID Number - Shipping address - Billing address - First and last name of person ordering parts - Telephone number - Purchase order number 	<p>6. Provide definitive shipping instructions.</p> <p>Any claim for loss or damage to a shipment in transit should be filed promptly with the transportation company making the delivery.</p>
-------------------------	--	--

FINDING A PART NUMBER

- The parts illustrations are numbered with **Ref** numbers which refer to corresponding parts lists. The parts lists include a number of columns of information:
- **Ref** - column refers to the reference number on the parts illustration.
 - **Part No.** - column lists the part number for the part.
 - **Description** - column is a brief description of the part.
 - **Qty.** - column lists the quantity of that part used in that area of the machine.

BETCO US WARRANTY POLICY

10 year coverage

Subject to the conditions stated below, Betco warrants parts and labor on rotationally molded polyethylene tanks/housings and injection molded vacuum head assemblies to be free from defects in materials and workmanship for a period of ten years to the original purchaser.

3 Year Coverage

Subject to the conditions stated below, Betco warrants parts and labor on all other Betco components to be free from defects in materials and workmanship for a period of three years to the original purchaser.

1 Year Coverage

Subject to the conditions stated below, Betco offers a limited warranty on parts and labor on the following equipment: parts and accessories to be free from defects in materials and workmanship for a period of one year to the original purchaser.

- DM Series Vacuums: #85506-00, #85507-00
- Bac Pac Lite Vacuum: #85903-00
- FiberPRO® Floor Dryer: #85507-00
- WORKMAN™ Series Vacuums: #85024-00, #85025-00, #85026-00, #85027-00
- CV100T Vacuum: #85023-00
- All Tools and Accessories
- All Battery Chargers
- All Batteries are pro-rated for 1 year

Allowable Travel Time Warranty Reimbursement:

Eligible equipment: All battery and propane powered equipment products. Warranty period: 90 days from date of sale to the original purchaser. A maximum 60 mile round trip at 44 cents per mile will be allowed for warranty consideration.

Propane Machine Warranty:

Honda engines are warranted by Honda for a period of 2 years against manufacturer defects. Kawasaki engines are warranted by Kawasaki for a period of 2 years against manufacturer defects. All other components (except wear items)* are warranted by Betco for a period of 3 years.

***Wear Items exempt from Warranty consideration include but may not be limited to: power cords, transport wheels, vacuum bags, belts, squeegee blades, pad drivers, clutch plates, handle grips, filters, screens, throttle cables, brushes and carbon brushes.**

Subject to the conditions and exceptions stated in this warranty, Betco warrants the Betco products to be free from defects in material and workmanship, under normal use and service, for the periods listed under the warranty policy to the original purchaser. At any time during the warranty period, Betco will furnish replacement parts for the Betco parts to the original purchaser. Such parts will be furnished and charged including transportation costs, to the original owner through any Betco authorized Service Distributor. If the original part is returned within the warranty policy period from date of delivery for inspection by Betco and is found to be defective the owner will be credited for the cost of replacement parts plus shipping and handling. Replacement parts that have become defective through wear or abuse are not included in this warranty.

This warranty does not apply to damage or defect caused by accident, misuse, Negligence, fire, or to any Betco product which has been serviced or repaired by other than an authorized Betco Service Distributor or Betco factory personnel. This warranty is void if products are used for any purpose other than that which was intended. There are no other warranties expressed or implied. In no event shall Betco be liable for incidental or consequential damages or any damage to person or property. (Please note some states do not allow the exclusion or limitations for incidental and consequential damages)
