

DRY SCRUB FLOOR MACHINE

By Mercury Floor Machines

DS-18

ROUND VS. SQUARE Scrub an entire floor with one machine. Get into corners and doorways!

Manufactured with Pride in the U.S.A.

Dynamic Features

- Heavy-duty, high quality components prepare floors to be refinished in half the time compared to conventional stripping process
- Chemical-free stripping used for refinishing wood floors and scrubbing
- Cleans edges and corners in every room – no stripper run-off and no ruined floors under doors

Built-in Safety

- Precision balanced weight distribution for safe, even and aggressive cleaning with low vibration
- Large non-marking wheels for clean transport to protect completed areas
- Safety enhanced interlock switch on the handle leaves both hands conveniently in control

Fastest, Easiest, Most Reliable Operation

- Heavy duty components provide durable and dependable scrubbing
- No side torque and operates in any direction
- Ergonomic carrying handle offers operator comfort and safety during transport
- Convenient handle with dual switch levers for operation with either hand
- Totally enclosed motor for less maintenance
- Mercury 6-Quart Backpack attachment for quick and easy clean-up
- Only takes minutes opposed to hours it takes for an operator to become acquainted with a conventional rotary machine

BEST OF THE BEST!

In chemical-free, orbital dry scrub machines

EASY TRANSPORT!

Large, non-marking wheels and ergonomic carrying handles

GREEN PRODUCT!

Chemical-free process eliminates 95% of chemical stripping procedures
