

SSS NAVIGATOR MPD

COMPACT DILUTION CONTROL DISPENSER

New, compact design wall-mounted bucket fill and bottle fill dispenser.

- Multiple Product Dispenser (MPD) - easily switch between a broad range of Navigator Concentrate Refills
- One hand fill for spray bottles and remote fill gun for bucket fill
- Fill spray bottles, auto scrubbers, mop buckets, microfiber buckets and other containers
- Remote fill hose features on/off trigger for easy one hand bucket fill
- Small 13" x 29" footprint minimizes space needed in supply closet
- 2.5 GPM dispensing with action-gap back-flow protection

For use with SSS Navigator Dilution Control System Concentrate 2-liter refills with closed loop inserts.

- Cost-efficient formulas—including EcoLogo and EarthCare® products—provide high performance options for every application.
- Safer to use - leak-proof bottle insert integrates with dispenser connector—eliminates spills; prevents contact with concentrated product.
- New metering tip is pre-installed providing accurate dispensing with each new refill bottle.
